Game Play Guidelines for Challenger Buddies

The role of a Challenger Buddy during game play is to protect the Challenger player and to assist in any way necessary. Below are some general guidelines for assisting players while playing in the field, while at bat and while running the bases. These guidelines are intended to give general instruction on how to assist Challenger players, but do not cover every situation. It is important to remember that each Challenger player will need a different level of assistance and may face unique challenges while participating.

Fielding Position & Readiness: Make sure fielders are a safe distance from the batter. No fielder should be located in front of the pitcher's mound Avoid standing in the base paths Stand near your player in a position that will allow you to protect him or her from a batted or thrown ball if necessary When your player is ready to throw a ball, be sure the receiver is ready to receive the throw Softly Hit Ball Hard Hit Ball Player with Allow the player to field the ball • If the ball is heading to the unlimited mobility alone outfield, let it go If the ball is in the infield, knock it Direct the player with respect to where to throw the ball down, if necessary, and then allow the player to field the ball Player with limited Field the ball, or ask another player to field the ball and hand it to your player mobility to allow them to throw it or hold it momentarily (walker, Assist the player in throwing the ball, if necessary wheelchair, etc.) When talking with a player using a wheelchair, always position yourself at their eye level and talk face-to-face At the end of an inning, all players and buddies should remain on the field until the last base runner scores.

	Batting
If necessary, help your player choose a bat and helmet and get into batting position	
Some players may also need guidance on where to run after they hit the ball. In this case move	
towards first base and encourage the player to follow you	
Thrown Pitch	Allow the player to swing at the pitch and assist if needed
	• If the player is not successful at hitting a thrown pitch, encourage them to use
	the tee
Tee	Set the ball in place when the fielders are ready and get the player into
	batting position
	Assist the player in swinging the bat if needed
Note: Make sure the player drops the bat before running.	

Base Running

- In most cases, runners advance one base each time a batter hits the ball
- You should run with your player and stay close enough to protect him or her from a batted or thrown ball
- In some cases, you may need to direct your player where to run next
